

Pagoda Lite

Cat. No. PGL

Cat. No. PGL/Fl

Cat. No. PGL/R

The Pagoda Lite produces a general lighting effect. This luminaire is not for directional lighting. The lens is manufactured from high quality UV stable acrylic with stainless anti-glare mesh.

The Retro™ is a 110/240 ac mains option suited to an installation where mounting a transformer is a problem, e.g. a brick wall where there is only the cable protruding out of the wall and it is not an option to recess the transformer or when replacing an existing light fitting. The base size increases in size to accommodate the encapsulated IP66 dimmable transformer.

A 240 volt fluorescent option is available which offers excellent light output, low energy usage and very low heat generation.
